

Your security is our priority.

Let's work together to keep your account safe.

Saving money is hard work. So you should know what steps to take to help keep your account access secure as you continue toward your financial goals—including retirement.

If you haven't already, take a few minutes to set up your account.

Here are some other ways you can protect your personal information:

- **If you haven't created an account yet, visit principal.com/welcome to help us verify your identity** and make sure you're the only one who can sign in to your account.
- **Choose a strong username and password.** Use a mix of letters, numbers, and special characters and avoid common words or phrases.
 - Or go one step further: use a long, complex passphrase.
- **Avoid reusing passwords—and don't share them.** Make your passwords unique for each account. If you need to write it down to remember it, store it in a secure location.
- **Log in to your account periodically.** Keep your information current, plus stay up to date on any plan changes.
- **Use current anti-virus protection software** on your devices.
- **Review account correspondence frequently (within 48 hours)** including transaction confirmations and notices.

The latest in account security options

Principal now offers more options on ways to secure your account. You have the choice of:
