

Cigna Pathwell Specialty Drug List

Coverage as of January 1, 2024

Cigna Pathwell SpecialtySM is for patients using a specialty medication to treat a complex medical condition.

About this drug list

This is a list of specialty medications that are part of the Cigna Pathwell Specialty program¹ as of January 1, 2024.^{2,3}

- Medications are **listed alphabetically** by condition.
- **Generic medications are listed in all lowercase letters** and brand-name medications are listed in all capital letters.
- All of the medications in this drug list are covered under the Cigna HealthcareSM medical benefit and **need approval (precertification) from Cigna Healthcare** before they can be covered.
- Certain specialty medications **aren't covered (unless approved by Cigna Healthcare)** because they have preferred alternatives.⁴ These medications are listed at the end of this drug list.
- **The drug list is updated often so it isn't a full list of the medications your plan covers.** Also, your specific plan may not cover all of these medications.

+ This does not apply to patients using the Cigna Healthcare Total Savings Prescription Drug List.

1. Cigna Pathwell Specialty provides coverage for many specialty medications, including but not limited to, a) those that must be administered by a provider in the Cigna Pathwell Specialty Network (or ordered from a specialty pharmacy in the Cigna Pathwell Specialty Network), b) were recently approved by the U.S. Food and Drug Administration (FDA) and c) high-cost brand-name specialty medications that have lower-cost alternatives that can be used to treat the same condition.
2. **Important:** The coverage change(s) shown in this drug list may not start for you on January 1st. That's because there are state laws in **Connecticut, Louisiana, New York** and **Texas** that may require your plan to continue covering your medication as it is now, until your new plan year starts. For example, if Cigna Healthcare is making a change to a medication on your drug list on January 1st but your new plan year doesn't start until April 1st, the change(s) won't affect you until April 1st. It's up to you to remember that the change(s) will be taking place at the later date. To find out if these state laws apply to your plan, please call customer service using the number on your ID card.
3. **Important:** If you currently have approval from Cigna Healthcare for your medication to be covered, the coverage change(s) shown in this drug list may not start for you on January 1st. That's because there are state laws in **Illinois** that may require your plan to continue covering your medication as it is now, until your new plan year starts. For example, if Cigna Healthcare is making a change to your medication on January 1st but your new plan year doesn't start until April 1st, the change(s) won't affect you until April 1st. It's up to you to remember that the change(s) will be taking place at a later date. To find out if this state law applies to your plan, please call customer service using the number on your ID card.
4. If your doctor wants you to use a non-covered medication instead of a preferred alternative, your doctor can ask Cigna Healthcare to consider approving it through the coverage review (precertification) process. Your doctor's office knows how the process works and will take care of everything for you.
5. "Provider" means an in-network specialty pharmacy your doctor orders your medication from, or the place (location) where you're having your treatment done.
6. Some states require out-of-network coverage. To find out if these state laws apply to your plan, please call customer service using the number on your ID card.

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Product availability may vary by location and plan type and is subject to change. All group health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna Healthcare representative.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
